

GST-tag, Biotin-conjugated (mouse monoclonal, clone 3E2)

Cat PA00178

Size 100 µg

Host

Mouse

Clonality

Monoclonal

Confirmed reactivity

Immunogen

GST tagged protein from *Schistosoma japonicum*.

Host

Mouse

Clonality

Monoclonal

Purity

Total IgG1. Protein G purified in PBS pH 7.4, with 50% glycerol and 0.09% sodium azide.

Format

Liquid

Storage

Store at 2-8°C.

Application

ELISA (ELISA), Western blot (WB)

Recommended dilution

1 : 800 (ELISA), 1: 1000 (WB)

Expected | apparent MW

26 kDa

Additional information

For in vitro research use only

Description

The gst tag (glutathione S-transferase) is a tag that is added to the protein of interest as a fusion protein and cannot be purified and detected. The label is 220 amino acids long, about 26 kDa, which is quite large compared to Myc or FLAG labels.
