

# Charcot Leyden Crystal Protein (CLC), ELISA Kit

Cat PEK04334

---

## Species

Plant

## Full Product Name

Plant Charcot Leyden Crystal Protein (CLC) ELISA Kit

## Product Gene Name

CLC elisa kit

## Molecular Weight

16,453 Da

## Storage

Store all reagents at 2-8°C

## Protein Family

Clathrin

## NCBI Accession #

AAA36190.1

## NCBI GI #

187274

## NCBI Official Full Name

Charcot-Leyden crystal protein

## UniProt Gene Name

CLC

## UniProt Synonym Gene Names

LGALS10; LGALS10A; Gal-10; CLC

## UniProt Protein Name

Galectin-10

## UniProt Synonym Protein Names

Charcot-Leyden crystal protein; CLC; Eosinophil lysophospholipase; Lysolecithin acylhydrolase

## UniProt Entry Name

LEG10\_HUMAN

## UniProt Secondary Accession #

Q0VDE3; C5HZ13; C5HZ14
