

His-tag | 6xHis (polyclonal)

Cat PA00092

Size 100 µg

Host

Chicken

Clonality

Polyclonal

Confirmed reactivity

6xHis

Immunogen

KLH-conjugated synthetic peptide 6xHis

Host

Chicken

Clonality

Polyclonal

Purity

Immunogen affinity purified in PBS pH 7.2.

Format

Liquid

Storage

Store at -20°C; make aliquots to avoid repeated freeze-thaw cycles. Please remember to spin the tubes briefly prior to opening them to avoid any losses that might occur from material adhering to the cap or sides of the tube.

Application

ELISA (ELISA), Western blot (WB)

Recommended dilution

1: 8000 (ELISA), 1: 1000 (WB)

Confirmed reactivity

6xHis

Predicted reactivity

6xHis

Not reactive in

No confirmed exceptions from predicted reactivity are currently known

Additional information

0,1 % sodium azide is present as preservative

Description

His-Tag is a multi-histidine tag consisting of 6 histidine residues that are introduced into the N or c terminal of a protein. The multi-histidine label can be used for recombinant protein detection using specific antibodies that do not bind to any dye or enzyme.
